Data Sheet

Wildeye 4G IoT Logger

Description

The Wildeye is a revolutionary device that connects meters & sensors directly to your phone - out of the box.

Connect your Wildeye to any compatible meter or sensor in 4G coverage and continuously monitor sensors and meters, control remote pumps and valves, and generate alerts and reports.

Wildeye comes with a website subscription that allows you to view data on graphs, dashboards or map views, and to configure and control your fleet of devices.

Features

- · Connect any meter or sensor
- IP68 Waterproof
- SIM card builtin for Verizon, Telstra, or Vodafone Global connectivity
- Rechargable version runs directly from solar panel
- Long-life version lasts up to 6 years
- Power from any 8-24V DC power source
- Waterproof external battery packs available to allow battery swapping
- Monitor up to 12 meters/sensors from a single wildeye
- Add extra sensors with Expander modules
